

**BUILDING A NEW
CHICAGO**

Pipe Installation Completed

July 17, 2018

Dear Neighbor,

Through Mayor Rahm Emanuel's Building a New Chicago infrastructure improvement program, the Department of Water Management (DWM) recently completed the installation of a new water main in your area.

Project No: 1801118

Location:

- ON W WELLINGTON AVE FROM N SOUTHPORT AVE TO N SHEFFIELD AVE

Over the next few weeks the new pipe will be pressurized, disinfected with chlorine and tested. We will then begin the process of switching services from the old main to the new main. During that transfer period you will be without water for a few hours. Your building will receive a handout notifying you when your water service will be temporarily interrupted prior to the service transfer.
