October 15, 2018

Dear Neighbor,

In November, Department of Water Management (DWM) crews will begin to install a total of 930 feet of new 24-inch sewer main in Diversey Pkwy from Halsted St to Burling St and in Burling St from Diversey Pkwy to 580 feet north of the intersection. The century old sewer main needs to be replaced.

When crews are working in the street, they may need to close it to traffic for safety reasons, but you will always be able to reach your home or business. Outside of working hours, a travel lane will be left open for local traffic only.

Crews will post the work area for “No Parking” as needed during work hours (generally 7am-4pm). Parking is allowed outside of those hours, but cars will need to be moved by the start of the next workday. We will try to preserve as much parking as possible.

We know that construction always involves inconveniences and noise. DWM crews will do everything possible to maintain your quality of life throughout these projects, and conduct themselves as good and thoughtful neighbors throughout the course of the project.

**Parkway Maintenance**

Before any project, the Department of Water Management (DWM) takes photographs of the street and surrounding properties. These photographs help with restoring the area to its preconstruction state. However, DWM does not assume responsibility for damage to privately installed parkway improvements, including sprinkling systems, fences, flower beds and shrubbery. The sewer project is not complete until damaged sidewalks, parkways and streets have been repaired.

If you have any questions regarding this upcoming project, please contact Dionisios “Dan” Manoli in my office at (773)525-6034 or [Dionisios.Manoli@cityofchicago.org](mailto:Dionisios.Manoli@cityofchicago.org).

Sincerely,

Alderman Tom Tunney  
44<sup>th</sup> Ward
