

BUILDING A NEW CHICAGO

Construction Mobilization

Dear Neighbor,

Through the [Building a New Chicago](#) infrastructure improvement program, the Department of Water Management (DWM) is installing a new sewer in your area on

Project No: 7322

Location:

- ON W BARRY AVE FROM N BROADWAY TO 200 FT EAST OF N PINE GROVE AVE
- ON W BARRY AVE FROM N BROADWAY TO N PINE GROVE AVE

By signing up for these notifications on the buildinganewchicago.org website, you will be kept informed on the progress of this project.

Construction crews have begun preparing the site for the sewer installation, including the location and marking of other utility services. You will notice construction equipment and materials placed in your area. The project will consist of several phases over the coming weeks.

Once the pipe has been installed, the street will be temporarily restored with concrete until complete restoration of the street with asphalt can be done. ADA-compliant sidewalk ramps will be repaired or installed where needed, along with repair of damaged parkway and sidewalk.

The final restoration of the street will include milling the surface, placing new asphalt, and painting the street markings.

Before any project, the Department of Water Management (DWM) takes photographs of the street and surrounding properties. These photographs help us to restore the area to its preconstruction state. However, DWM does not assume responsibility for damage to privately installed parkway improvements, including sprinkling systems, fences, flower beds and shrubbery. New sewer construction is not complete until damaged sidewalks, parkways and streets have been repaired.

The restoration schedule is subject to change and may be impacted by adverse weather conditions. Asphalt is not available during winter months, which may delay the final restoration of the street.

You will receive additional notifications as the project proceeds.

If you have questions about this project or the project notifications program, please email [Helpdesk](#).

Sincerely,

Randy Conner
Commissioner
